

Satellite data analysis chart

In this chart I will simulate what would the data be like if the satellite could really analyse an exoplanet and send the signal back to the centre.

Simulation date

Planets	temp_ok	radius_ok	distance_ok	Habitable
001	True	True	True	yes
003	True	True	True	yes
003	False	False	True	no
004	True	False	True	no
005	False	True	True	no
006	False	True	True	no
007	True	True	True	yes
008	False	True	True	no
009	False	False	True	no
010	False	False	True	no
011	True	False	True	no
012	True	True	True	yes
013	False	False	False	no
014	False	True	False	no
015	False	False	False	no
016	True	True	False	no
017	False	False	True	no
018	True	True	True	yes
019	False	False	True	no
020	False	True	True	no
